Friday, May 7, 2021

To Parents and Guardians:

Please find enclosed an update on schooling for Wagmatcook students. It is important to keep us all on the same page. Presently, "Covid-19 and its variants are posing serious health and safety concerns and now, more cases are being reported in the eastern zone" (School Board). Given this situation the Wagmatcookewey School instructional plan will be 100% e-learning until the end of June (School Board).

Next week (May 10-14) teachers will be meeting in their divisions to discuss and determine a reasonable student assessment model.

The Grade 10-12 credit model cannot be changed and students will be assessed on work completed.

An in-person grade 12 graduation ceremony may not happen this year but this will be updated in the next couple of weeks.

Stay safe!
